Chart Rules

Parents Braunvieh Percentage must come from a Registered Braunvieh's BAA Registration Status.

 Progeny is not registerable.

 Progeny is registerable as a Beef Builder, Certified Beef Builder, or Braunbray dependant upon what remainder of animals breed make up is.
 Beef Builders are derived from at least one BAA registered parent.
 Certified Beef Builders are derived from at least one BAA registered FB, PB, or Certified Beef Builder parent and the other parent having 3 purebred generations on both its sire and dams sides being registered by a breed association, or from 2 Certified Braunvieh Beef Builder Parents.
 Braunbray cattle are derived from at least one BAA registered FB, PB, or Braunbray mated to a Registered Bos Indicus or Zebu, or, from 2 Braunbray Parents.

 Bulls are registerable as 7/8th's Beef Builder, Certified Beef Builder, or Braunbray.
 Females are registerable as Purebreds.

 Progeny are registerable as Purebred Braunvieh.

 Progeny are registerable as Fullblood Braunvieh.

Progeny registration eligibility will be figured in no less than 1/8 increments.

In cases of progeny resulting in 1/16's breed percentages, the BAA will round down to the nearest 1/8th.

Progeny which are 15/16th's are not rounded down as they are Purebred by BAA rules.

Example- a 7/8th bull mated to a PB or FB cow resulting progeny are 15/16's, making them a Purebred.
