- Consignor must register bulls and provide 205-day weights to the BAA for data to be provided.
- Bulls must be Vaccinated with Two rounds of shots completed at least 21 days prior to delivery.

I authorize the National Braunvieh Bull Test Committee and PX/GSBT Bull Test to act as my agent and agree for the above listed bulls in the following circumstances/activities: ◦ Submission and payment of uncompleted genetic testing to BAA. ◦ Publish individual animal trial results, videos or pictures. ◦ Phenotype and Genotype use in Genetic Evaluations on all Test Data. ◦ Sale and transfer of nominated sale bulls and accept responsibility for additional sale costs. ◦ Allow for local marketing of any bulls with disposition issues (if not picked up immediately after notification). ◦ All bills owed to the respective Bull Test location will be paid prior to pickup of bulls. ◦ PX Feeders, Green Springs Bull Test, BAA, and including any employee, director, owner, or associate shall not be liable or financially responsible for the health/death/theft loss of any animal taking part in the bull test development program.

I have read and agree with the above Representation, Billing and Liability Statements:
